Robley Gori

Software Engineer at Safaricom PLC
Kenya

Summary

A software developer driven by passion, excellence and the belief that the future will be written in code.

I enjoy being challenged and engaging with projects and technologies that require me to work outside my comfort-zone and knowledge set, as continuing to learn and overcome challenges fuel my growth. I am passionate about big data and analytics.

I am skilled & experienced in Python, Elixir JavaScript, Java, Docker, Microservices and DevOps.

Experience

Safaricom PLC
Software Developer
May 2018 - Present
Nairobi, Kenya

Part of the team implementing microservices & containerisation at the organisation using technologies such as Docker, Kubernetes and Java Spring among others.

Andela
Software Developer
June 2017 - Present
Nairobi, Kenya

Andela provides companies with access to the top 1% of global tech talent. We identify high-potential developers on the African continent, shape them into world-class technical leaders, and pair them with companies as full-time, distributed team members. This allows Andela's partners, which range from startups to Fortune 500s, to accelerate their product roadmaps while minimizing time spent interviewing, on-boarding, and training new hires.

Andela is backed by investors including Spark Capital, Omidyar Network, Susa Ventures, Steve Case, Founder Collective, Rothenberg Ventures, Learn Capital and more.
